Non-face-to-face support provisions	Description
<p>Included as standard in all sessions:</p> <ul style="list-style-type: none"> <li>- up to 10 minutes per 1:1 session</li> <li>- up to 10 minutes per group session (shared cost)</li> <li>- up to 30 minutes per initial assessment</li> </ul>	<p>NM has standard Non-face-to-face support provisions on top of every face to face or telehealth appointment to ensure our therapists have the time to provide essential additional services that ensure our clients get the best outcomes from each therapy session. While these activities do not involve direct hands-on care, they are integral to ensuring effective treatment and client outcomes and therefore are included in the overall service fee to reflect the comprehensive &amp; high-quality care NeuroMoves provides. Should your therapist require less time for these essential services, your invoice will reflect this</p> <p>Examples of how your therapist may spend Non-face-to-face support provisions includes reviewing your goals and previous progress notes (which inform the preparation of a high-quality session), coordinating with other healthcare professionals and supporters linked to your care, preparing treatment plans, maintaining documentation, sourcing technology and equipment, obtaining quotes, developing high quality reports, documenting &amp; analysing assessment results and developing resources</p>

\*NSW/VIC/ACT Fees shown based on NDIS price guide - different locations may have a variation to this rate

If you feel that these prices are not affordable for you, please contact your local NeuroMoves Team Leader to find out about our subsidies.
